As updated 12-4-19

The required number and quality of assessments required for regional referee re-certification has been changed since you paid your fees. Now the total is \$330, not the \$380 that you paid. This check for \$50 is to correct that overpayment. While you were over-charged, others that signed up after you did will be paying the correct \$330.00 total fee. Below is what is now posted on [www.mrdp.org](http://www.mrdp.org) based on the what is currently published on the USSF website.
